DOOMED!

HE candle gave Lincoln to America, for without its flickering light he could not have read and studied. Yet nobody reads by candles today. They are obsolete. Leather heels have gone the way of candles -they have outlived their usefulness-they are doomed. Run down, in many cases, within two or three weeks, their slovenly appearance gives but a partial idea of the harm done by the continual impact of nail-studded, unyielding leather heels on hard pavements.

Far greater than the waste of leather or the loss of trim, neat appearance, is the waste of energy that comes from pounding all day on leather heels. Every step is like a hammer blow to the delicate nervous system, and brings you nearer to that state of fatigue which robs you of the driving force and energy which all need so much in their daily work.

Don't pound away your health with every step you take. O'Sullivan's Heels will absorb the shocks that wear you out, and help you conserve your energy. They make hard pavements as soft and springy as country paths.

O'Sullivan's Heels wear three times as long as leather, and are guaranteed to outlast any other heel. Good

dealers sell the latest style shoes with O'Sullivan's Heels already attached. In black, white or tan; for men, women and children. Insist on O'Sullivan's and avoid the disappointment of substitutes.

With every step on leather heels you are pounding away your energy

O'Sullivan's Heels protect you against the jars of hard pavements - they conserve your energy

Where Quality Counts

Money-Saving Opportunities on our entire line. Only a personal inspection can convince you of the many benefits of trading with us.
